

PENDLETON TOWN BOARD
REGULAR MEETING and PUBLIC HEARING
August 10, 2026

The notice for the Public Hearing was published in the Lockport Union Sun & Journal on July 30, 2026 and on the Town's website.

Supervisor Maerten opened the Public Hearing at 6:57 p.m.

The purpose of the hearing is to allow public input on a request to rezone a property on Killian Road (SBL 164.00-3-23.1) from the current mixed zoning. The proposed change includes this property (SBL 164.00-3-23.1) being rezoned from Light Industrial (LI) and Residential (R-2) to Residential (R-2) in its entirety.

Supervisor Maerten opened up the floor to public comments.

Resident Jim B. expressed concerns regarding the potential development, specifically relating to flooding, increased traffic, and the capacity of the local school district to accommodate additional students.

Resident Tim C., one of the owners of Pendleton Pub Creek, spoke in favor of bringing additional homes, residents, and businesses into Pendleton.

Resident Charles J. expressed concerns regarding flooding, sewage pumping, the ability of the schools to accommodate additional students, and increased traffic.

Resident Elliot L., a partner with Regency, spoke in support of the proposed rezoning. He discussed the potential development and stated that, based on the preliminary plans, it should not negatively impact surrounding properties. He noted that single-family residential development would be an appropriate use of the property. He also stated that engineers are being consulted regarding drainage and that the project remains in the early planning stages. He noted that the property is one of the few remaining parcels in the area that is not located within wetlands and that the development is being designed with those considerations in mind.

Resident Roy, one of the property owners, spoke about the decision to sell the property. He stated that he and his brother are retiring and that continuing to farm the property is no longer feasible. He believes selling the property for residential development is the best option.

Anthony Mayo of Regency Builders spoke about the work Regency Builders has completed in Pendleton and throughout the area. He stated that the company values the community and works closely with engineers and the Town to ensure that developments are properly planned. He also discussed the potential economic benefits of new development and the importance of making a quality investment in the Town.

A resident of Killian Road expressed concerns regarding drainage and questioned where the additional water from the development would go. The resident also expressed concerns about increased traffic.

Resident Bob Mayo, owner of Regency Builders, emphasized that the project is still in the early stages of planning. He stated that all aspects of the proposed development will need to be properly engineered before approval and will be required to comply with all applicable Town codes and regulations. He also noted that new homes could bring additional business to local businesses and expressed his desire to create a quality development that would be an asset to the Town.

A resident of Townline Road expressed concerns regarding traffic on Townline Road, describing it as dangerous. The resident also discussed flooding and stated that crops have been lost due to flooding. Concerns were raised regarding where additional stormwater would be directed and the impact flooding may have on local farmers.

A resident expressed concerns regarding the pumping of sewage onto lawns and crops, as well as the resulting odor. The resident stated that a comprehensive plan is needed to address these concerns.

Robert of Regency also addressed concerns regarding flooding and drainage plans, stating that the developers are working on plans to address these issues.

A resident also requested clarification regarding zoning R-1 or R-2.

Motion made by Councilman Rumbold, seconded by Councilman Buechler, to close the Public Hearing at 7:21 p.m. Motion carried.
